

Mark A. Paige

SENIOR PROJECT MANAGER

Mr. Paige has 25 years of progressive experience in structural engineering, design and project management. His experience includes the structural design, analysis and project management for institutional, educational, commercial, healthcare, residential, and pharmaceutical facilities. Mark also specializes in the evaluation and adaptive re-use of existing structures of all building material types. He demonstrates the ability to build long-term client relationships and determines cost-effective solutions to the design and construction process. His experience includes the structural design of new and existing facilities throughout the country. Projects include existing conditions assessments, multi-discipline coordination, analysis and design for retrofit and new projects, computer modeling, construction validation and compliance, specifications, document production and supervision.
